TEACHING GUIDE

Subject: ICT in Education

Degree: Degree in Primary Education

Character: Mandatory

Language: Spanish/ English

Modality:

Classroom/Distance

Credits: 6

Grade: 2nd

Semester: 4th

Professors/Teaching Staff: Dr. Mr. Vicente Luque Centeno; Mr. Jorge Martín De Arriba; Mr. Isaac Martínez Pons; Mr. Jose Euclides Cova Fernández; Dr. Mrs Cristina Villalonga Gómez.

1. COMPETENCIES AND LEARNING OUTCOMES

1.1. Competencies

Core competencies

CB1 Students know how to possess and understand knowledge in an area of study that starts from the basis of general secondary education, and is usually found at a level that, while relying on advanced textbooks, also includes some aspects that involve knowledge from the forefront of their field of study.

CB2 Students know how to apply their knowledge to their work or vocation in a professional manner and possess the competencies that are usually demonstrated through the elaboration and defense of arguments and problem solving within their area of study.

CB3 Students have the ability to gather and interpret relevant data (usually within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical issues.

CB4 Students are able to convey information, ideas, problems and solutions to both specialized and non-specialized audiences.

CB5 Students have developed those learning skills necessary to undertake further studies with a high degree of autonomy.

General competencies

CG1 Ability to make use of intellectual work skills (understanding, synthesizing, schematizing, explaining, exposing, organizing).

CG2 Ability to use a basic methodology for researching sources: analysis, interpretation and synthesis.

CG3 Ability to manage information.

CG4 Ability to present clearly, orally and in writing, complex problems and projects within their field of study.

CG5 Ability to learn and work independently.

CG6 Ability to work in teams, integrate in multidisciplinary groups and collaborate with professionals from other fields.

CG7 Capacity for self-initiative, self-motivation and perseverance.

CG8 Heuristic and speculative capacity for creative and innovative problem solving.

CG9 Ability to carry out new projects and action strategies in real situations and in different areas of application, from a humanistic perspective.

CG10 Interpersonal communication skills, awareness of one's capabilities and resources.

CG11 Ability to adapt to new situations.

CG12 Ability to recognize diversity and respect multiculturalism.

CG13 Sensitivity to environmental issues and to cultural and linguistic heritage.

CG14 Ability to document one's own culture and acquire the knowledge and ability to communicate with other cultures.

CG15 Ability to acquire and fulfill a professional ethical commitment.

CG17 Ability to use new information and knowledge technologies for the organization, planning and development of academic and professional activities.

Specific competencies

CEC1 Know the curricular areas of Primary Education, the interdisciplinary relationship between them, the evaluation criteria and the body of didactic knowledge about the respective teaching and learning procedures.

CEC2 Design, plan and evaluate teaching and learning processes, both individually and in collaboration with other teachers and professionals of the center.

CEC4 Encourage the reading and critical commentary of texts from the diverse scientific and cultural domains contained in the school curriculum.

CEC14 Value individual and collective responsibility in achieving a sustainable future.

CEC16 Acquire habits and skills for autonomous and cooperative learning and promote it among students.

CEC17 Know and apply information and communication technologies in the classroom.

CEC18 Selectively discern audiovisual information that contributes to learning, civic education and cultural enrichment.

CEM24 Understand the basic principles and fundamental laws of experimental sciences (Physics, Chemistry, Biology and Geology).

CEM25 Know the school curriculum of these sciences.

CEM26 Pose and solve problems associated with science in everyday life.

CEM27 Value science as a cultural fact.

CEM28 Recognize the mutual influence between science, society and technological development, as well as the relevant citizenship behaviors, to ensure a sustainable future.

CEM66 Develop and evaluate curriculum content through appropriate didactic resources and promote the corresponding competencies in students.

1.2. Learning outcomes

At the end of this course, the student must:

- Value science and be able to communicate its value to elementary students through problem-solving techniques applicable to everyday life.
- Consider the sciences in their social and cultural context.
- Know the learning processes of the referred school stage.
- Know the basic characteristics of students at this stage.
- Know the motivations and social contexts of the students.
- Understand the evolution of the students' personality and to know how to identify dysfunctions.
- Be able to identify learning difficulties and know how to deal with them.
- Be able to plan the teaching to the different learning paces of the students.

2. CONTENTS

2.1. Prerequisites

None.

2.2. Description of contents

- The Web 2.0 in the teaching and learning process
- Multimedia contents in the educational area

- Interactive learning and teaching models
- Teaching media and resources

2.3. Training activities

Presential modality:

TRAINING ACTIVITY	HOURS	PERCENTAGE OF ATTENDANCE
AF1. Synchronous theoretical classes	22	100%
AF3. Practical classes. Seminars and workshops	17	100%
AF4. Tutorials	14	100%
AF5. Work in small groups	7	100%
AF6. Individual study and independent work	85	0%
AF7. Evaluation activities	5	100%
TOTAL NUMBER OF HOURS	150	

Distance modality:

TRAINING ACTIVITY	HOURS	PERCENTAGE OF ATTENDANCE
AF2. Asynchronous theoretical classes.	14	0%
AF3. Practical classes. Seminars and workshops	10	0%
AF4 Tutorials	12	0%
AF6. Individual study and independent work	112	0%
AF7 Evaluation activities	2	100
TOTAL NUMBER OF HOURS	150	

2.4. Teaching methodologies

The teaching staff will be able to choose among one or several of the following methodologies detailed in the verified report of the degree:

Code	Teaching methodologies	Description
MD1	Expository method. Master lecture	Structured presentation of the topic by the teacher in order to facilitate information to students, transmit knowledge and activate cognitive processes. Active student participation is encouraged through debate, discussion of cases, questions and presentations.
MD2	Individual study	Autonomous and reflective work of the student, in order to deepen the acquisition of the associated skills (preparation of classes and exams; use of information sources; completion of assignments, presentations; use of ICT; participation in discussion forums, etc.).
MD3	Collaborative learning	Develop active and significant learning in a cooperative way.
MD4	Troubleshooting	Active methodology that allows to exercise, rehearse and put into practice previous knowledge.
MD5	Case studies	Analysis of a real or simulated case in order to learn about it, interpret it, solve it, generate hypotheses, contrast data, reflect, complete knowledge, etc.
MD6	Project-oriented learning	Carry out a project to solve a problem and apply acquired skills and knowledge.
MD7	Tutoring (individual and/or group)	Methodology based on the teacher as a guide for student learning. Face-to-face or through the use of technological tools such as forums, mail or videoconferences.
MD8	Apprenticeship contract	Develop autonomous learning.
MD9	Self-evaluation	Assessment of one's own knowledge, skills and acquisition of competencies.
MD10	Heteroevaluation	Teacher's evaluation of the student

3. EVALUATION SYSTEM

3.1. Grading system

The final grading system will be expressed numerically, in accordance with the provisions of art. 5 of Royal Decree 1125/2003, of September 5 (BOE September 18), which establishes the European Credit System and the system of Grades in official university degrees and their validity throughout the national territory.

- 0 - 4.9 Fail (SS)
- 5.0 - 6.9 Pass (AP)
- 7.0 - 8.9 Good (NT)
- 9.0 - 10 Outstanding (SB)

The mention of "matrícula de honor" may be awarded to students who have obtained a grade equal to or higher than 9.0".

The number of honorary matriculation awards may not exceed 5% of the students enrolled in a subject in the corresponding academic year, unless the number of students enrolled is less than 20, in which case only one honorary matriculation award may be granted.

3.2. Evaluation criteria

Ordinary call

Mode: On-site

Evaluation systems	Percentage
Partial evaluation	20%

Activities	20%
Participation	10%
Final exam	50%

Mode: Distance

Evaluation systems	Percentage
Activities	30%
Participation	10%
Final exam	60%

Extraordinary call

Modality: On-site

Evaluation systems	Percentage
Activities	40%
Final exam	60%

Modality: Distance

Evaluation systems	Percentage
Activities	40%
Final exam	60%

3.3. Restrictions

Minimum qualification

In order to average the above weightings, it is necessary to obtain at least a grade of 5 in the final test.

Attendance

The student who, without justification, fails to attend more than 25% of the classes may be deprived of the right to take the exam in the ordinary call.

Writing standards

Special attention will be paid to the presentation and content of written assignments, practical exercises and projects, as well as to exams, taking into account grammar and spelling. Failure to comply with the minimum acceptable standards may result in points being deducted from the assignment.

3.4. Plagiarism warning

The Universidad Antonio de Nebrija will not tolerate plagiarism or copying under any circumstances. It will be considered plagiarism the reproduction of paragraphs from texts other than the student's audit (Internet, books, articles, papers of colleagues...), when the original source is not cited. *The use of quotations cannot be indiscriminate. Plagiarism is a crime.*

If this type of practice is detected, it will be considered a Serious Misconduct and the sanction foreseen in the Student Regulations may be applied.
