This is a guiding schedule. Students can complete the preparatory course at their own pace.

Between September 30 and October 4, students will be called for a practical session on:
- The virtual campus.
- The use of videoconferences and the chat.

If any student signs up for the course later than October 7[h], s/he can watch the initial videoconference and get extra practice later on. During the first two weeks of the course, all students must complete paperwork to formalize administrative procedures.

Once the students have access to the campus, they will be able to complete the activities of the preparatory course. This preparatory course includes:
- Definitions of basic concepts.
- Glossary of basic terminology.
- Excerpt from a basic text.
- Self-evaluation questionnaire.

Students should read the material and complete the self-evaluation questionnaire. Upon completion of the questionnaire, students will be able to find out their score and determine if they need to re-read the material.

1. Online classes* (18:00-20:00)
